

Victorian Millwork & Gingerbread House Trim

We tend to be somewhat old-fashioned in our belief that we have a responsibility to provide our customers with not only quality, but also to make our products as "user friendly" as possible.

We specialize in BRACKETS, PENDANTS and GABLES, the three pieces of ornamental trim that will transform your home from "just another house on the block" to a showplace of charm and elegance in your neighborhood. We have designed our catalog to help you visualize the effect each pattern will have on your home. Each pattern is shown in matched set of BRACKETS, PENDANTS and GABLES, eliminating the possibility of mismatching, which can easily occur, with often undesirable results.

All of our items are MADE IN AMERICA by local craftsmen from select, 3/4" clear pine or select 7/8" clear cypress.

Our Gable decorations are offered in two sizes: one sized for gables and one sized for dormers. The patterns are identical - only the sizes are different. We have designed our gables with you in mind. All of our gables are universal, eliminating the need for you to measure your gable (which can be difficult to accomplish accurately). Our gables are easy to assemble and, with minor adjustments, will fit perfectly.

Our pieces are framed, at no additional charge, with 3/4" x 1 1/2" molding. Experience has proven framing to be very important, making installation easier, increasing strength and adding dimension. Each piece is pre-drilled to make installation a "breeze". With each order, we include simple step-by-step illustrated instructions covering finishing and installation.

UNCLE JOHN'S stands behind our product; and if you are not 100% satisfied, simply return your trim within thirty days...no explanation necessary. We will promptly send you a refund.

We look forward to providing you with a product which will bring you pleasure for years to come.

We encourage you to visit our web site www.unclejohns.com. The purpose of this catalog is to provide you with a handy reference.

There are some items that appear on our web site that are not shown here.

Over the years, we have continually reorganized our catalog to be as easy to use as possible. Sometimes, terms used in Gingerbread House Trim can be quite confusing. Take a few moments and familiarize yourself with "what's - what".

Brackets

for porch posts and doorways

Pendants

the perfect accent between Brackets

Spandrels

to "span" and divide space

Sawn Balusters

Perfection for the porch

Screendoor Brackets & Inserts

Our Screendoor Brackets and Center Panel Inserts are sized for "your" door and are cut "to fit" from 1/2" clear pine.

Headers

for windows, doors, mantles and windowboxes

Appliques

Create "designer" shutters by attaching appliques.

Balusters are one of the most versatile items of trim, interchangeable, blending with any of the Bracket Patterns. Dramatic or subtle, truly the finishing touch.

Please understand, our illustrations are not to scale. The houses shown in our illustrations have been downsized to display as many pieces of trim as possible.

Dormers, Gables and Extensions

(The only difference between a Dormer and a Gable is size. The patterns are identical.)

The length of the side of the Dormer and Gable will vary slightly as the angle of the roof changes.

Dormers

Gables

Extensions

Multiple Extensions, as shown in our pattern illustrations, may be used to trim larger gables.

To determine the total extended length, add Dormer or Gable lengths to the total length of the Extensions.

Our Dormers and Gables are designed to easily fit "any" pitch roof. Each unit is comprised of three pieces; a centerpost and two identical sides. To hang, simply attach the centerpost to the fascia board. Slip the sides into place, trim the spine and slip into place. No measuring is necessary.

Running Trim

Classic running trim from the nineteenth century is the perfect touch to add the true gingerbread look. Use between posts, following fascia boards, under windows etc. Available in two foot sections for economy, doweled for seamless joints that disappear when painted.

RT 101A	Height 2 1/2"	\$10.00 per 2' section
RT 101B	Height 3 1/2"	\$12.50 per 2' section
RT 101C	Height 5"	\$14.00 per 2' section

RT 102A	Height 2 1/2"	\$10.00 per 2' section
RT 102B	Height 3 1/2"	\$12.50 per 2' section
RT 102C	Height 5"	\$14.00 per 2' section

RT 103A	Height 2 1/2"	\$10.00 per 2' section
RT 103B	Height 3 1/2"	\$12.50 per 2' section
RT 103C	Height 5"	\$14.00 per 2' section

For a 1 1/2" x 3/4" top rail please add \$2.50 per section.

Combine Spandrels, Brackets, Pendants and Posts
Create your own special statement.

We can "split" Pendants as shown. Drop-posts are priced at \$6.99 each.

Custom items which are "made-to-measure" are non-returnable.

Spandrels

Spandrels are shipped in four foot sections. To determine the cost multiply the total number of inches you need by the price "per inch".

Fretwork Spandrels,

Each Spandrel is made to your measurements. To determine cost multiply the total number of inches you need by the price "per inch".

FSP 1150

End Height 6 1/2" - Center Height 5"
\$20.88 per foot \$1.74 per inch \$50.00 min.

FSP 1152

End Height 12" - Center Height 7 1/2"
\$27.36 per foot \$2.28 per inch \$60.00 min.

End Height 15 3/4" - Center Height 8"
\$31.68 per foot \$2.64 per inch \$70.00 min.

FSP 1159

End Height 14 1/2" - Center Height 8"
\$36.00 per foot \$3.00 per inch \$75.00 min.

FSP 1161

End Height 12" - Center Height 7 1/2"
\$27.36 per foot \$2.28 per inch \$60.00 min.

The pieces shown are scaled to 60 inches long. Spandrels less than 48" may lose their center piece.

Please include \$10.00 crating for each piece. Custom items which are made-to-measure are non-returnable.

Gable Finials

The crowning touch for gable peaks

Classical patterns taken from the "Universal Design Book" published in 1904. Constructed from cypress, the cutwork pieces are 1" thick, with a 1½" turned post. These items must be "made-to-measure" for the pitch of your roof. The measurements shown refer to the height of the center post.

To determine pitch, measure 36" down each fascia and then across, send us the across measurement.

Custom items which are "made-to-measure" are non-returnable.

Corbles

3" thick, ideal for mantels, beneath beams, in cased openings, bookends and architectural accents.

CR-1
6¼" x 13½"
\$34.99

CR-2
6" x 11"
\$29.99

CR-3

CB-6A
5½" x 5½" \$5.99
CB-6B
12½" x 12½" \$12.49

Sawn Balusters

Porches, fences, balconies and decks become a dramatic statement of Classic Gingerbread. All of our Sawn Balusters are offered in two standard sizes, 24" and 27". Need a special size? Custom sizes, without custom prices.

To determine the number of balusters you need, first add 1/2 " (for spacing) to the width of the baluster, then divide this number into the total length needed. For example, 1/2 "+3 1/2 " = 4" divided into 120" = 30. Include \$10.00 for crating for every 24 balusters.

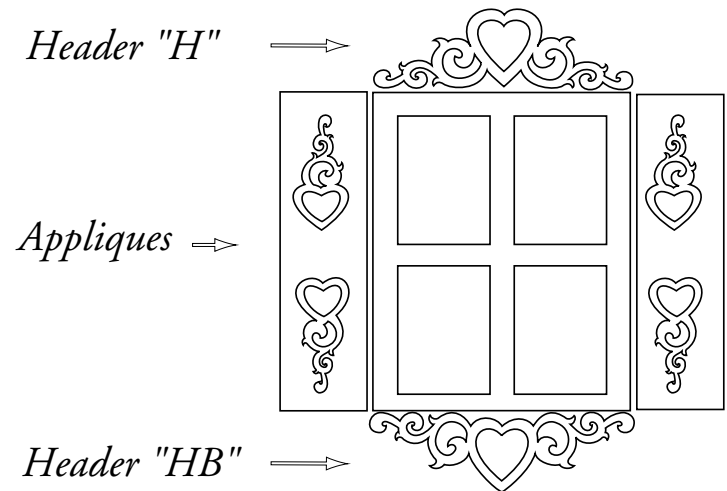

Appliques & Headers

Create "Designer" windows for a budget price.

Appliques

Appliques are priced as sets (all of the pieces necessary to decorate two shutters).

Appliques are sized for different lengths of shutters, 3' and smaller and 4' and larger. Please indicate "small" or "large" on the order form. Appliques are easily attached using screws or carpenter's adhesive. An illustrated instruction sheet is included with each order.

Headers

Some patterns require different Headers for the top and bottom of the window, such as the hearts and the star. When you need a header for the bottom of a window, add a "B" to the item number, i.e. 542H for the top and 542HB for the bottom.

Use your imagination to decorate shelves, mantles, chests, cabinets, etc. with Headers & Appliques.

To order screendoor trim "to fit" simply fill in the blanks and list the items you need on the order form.

Please give all measurements in inches, not feet and inches.

Screendoors

Simple or ornate, screendoors make a statement of elegance and romance, creating an atmosphere of times long past, a presence that fills your home.

Because of their dimensions, screendoors must be shipped via motor freight, which can easily become quite expensive. We have found that the most economical method to trim doors is for you to purchase a door locally.

Send us a few simple measurements and we will supply trim to fit "your" door.
